The NF Forum allows those living with NF, and their families, to connect, support, and learn while attending seminars on relevant topics pertaining to neurofibromatosis. In 2012, for the first time, the Children's Tumor Foundation will hold its annual NF Forum adjacent to the NF Conference. This is an unprecedented opportunity for the Forum to hold family-targeted sessions, benefiting from the presence of many international physicians, researchers, and clinicians, sharing the latest in medical advances. Mark your calendar and plan to attend!
