

CLINICAL TRIAL SUMMARY DESCRIPTION

TRIAL INFORMATION:

Is this a CLINICAL TRIAL or a RESEARCH STUDY ?

Is this a NEW Submission or an UPDATE of one already submitted?

TITLE: Trial to Evaluate the Safety of Lovastatin in Adults with Neurofibromatosis Type I (NF1)

PHASE: Phase I

DRUG/TREATMENT: Lovastatin

OBJECTIVE OF STUDY: This research project is designed to evaluate the safety of the drug lovastatin in individuals with NF1. Lovastatin is a FDA approved medication marketed for treatment of high cholesterol. Very little is known about how individuals with NF1 tolerate this medication. This study will determine (1) the safety and tolerability of lovastatin in individuals with NF1. (2) This study is also designed to evaluate any side effects or benefits that this study drug may have on cognitive problems sometimes experienced by individuals with NF1.

LOCATIONS: UCLA campus

TRIAL WEBSITE: _____
(for complete trial information)

MINIMUM ELIGIBILITY REQUIREMENTS:

AGE/GENDER REQUIREMENTS: 18-45

OTHER REQUIREMENTS: You may be eligible to participate if you have a diagnosis of NF1, speak English fluently, and are not currently experiencing or being treated for high cholesterol. You cannot be part of this study if you are pregnant or lactating, have evidence of liver disease or dysfunction, have a history of neurological illness, or use certain medicines that interfere with the study drug.

RECRUITMENT START DATE: IMMEDIATE
