

# **CLINICAL TRIAL SUMMARY DESCRIPTION**

## **TRIAL INFORMATION:**

Is this a **CLINICAL TRIAL**  or a **RESEARCH STUDY**  ?

**TITLE:** Variation in Gene Expression in NF1

**PHASE:** \_\_\_\_\_

**DRUG/TREATMENT:** \_\_\_\_\_

**OBJECTIVE OF STUDY:** To investigate differences in disease severity among individuals and families with NF1. Look at the genetic differences among individuals with NF1 to understand why some people with NF1 have a more severe case than other people with NF1

**LOCATIONS:** National recruitment, with evaluations done at the National Institutes of Health, Bethesda, Maryland

**TRIAL WEBSITE:** <http://www.genome.gov/16015146>

## **MINIMUM ELIGIBILITY REQUIREMENTS:**

**AGE/GENDER REQUIREMENTS:** Males and Females, age 16 years and older with NF1 – either first family member diagnosed with NF1 or have a family history

**OTHER REQUIREMENTS:** Parents and affected siblings will be invited to participate. Study includes a 2-day visit to the NIH Clinical Center for genetics evaluation, MRI of the spine, photography and a blood draw. Medical evaluations will be free of charge and funding is available for travel expenses.

**RECRUITMENT START DATE:** On-going

## **TRIAL CONTACT FOR INTERESTED PARTICIPANTS:**

**NAME/TITLE:** Jennifer Sloan, Ph.D., M.S. – Study Coordinator and Genetic Counselor

**MAILING ADDRESS:** NHGRI/NIH, 10 Center Drive. MSC 1205, Building 10, CRC, Room 3-2551  
Bethesda, MD 20892

**PHONE:** 301.451.9145                      **FAX:** 301.496.7157

**Email ADDRESS:** [jsloan@mail.nih.gov](mailto:jsloan@mail.nih.gov)
