

The time is NOW

NF refers to a group of genetic conditions that causes tumors to grow on nerves and includes all types of

neurofibromatosis & schwannomatosis

The Children's Tumor Foundation mission is to drive research, expand knowledge, and advance care for the NF community.

OUR VISION: END NF

Our Goal:
100% tumor reduction in 100% of patients

CHILDREN'S TUMOR FOUNDATION IMPACT BY THE NUMBERS:

1 FDA-approved drug
(selumetinib)

1 platform trial (the first ever for NF2-SWN & another for NF1 coming!)

3X the number of NF clinical trials (currently 67 in progress)

10 pharma/biotech companies drawn toward NF

1931 drugs screened in Synodos for NF2

8 team science initiatives (leading to selumetinib for NF1 and brigatinib for NF2-SWN)

45 years of funding research

1,000 attendees at the NF Conference and NF Summit

800+ Research Projects Funded

20,000 patients each year in **70 Clinics** in the NF Clinic Network

11,000 in the NF Registry

200+ Young Researchers drawn to the NF field via YIA

97 Researchers collaborated on new NF diagnostic criteria

The time is now to **End NF.**
